

2017 Sheep and Goat Stalling Preferences and Pen Allotments

The following list shows where each sheep and goat exhibitor is stalled based on the preferences selected when entering. Sheep and goats will be stalled together within a 4-H county or FFA chapter assigned area. Note: Sheep stalling is based on 3 sheep per pen with yearlings and rams taken into account for additional space when possible. Goat stalling is based on 4 goats per pen with yearlings taken into account for additional space when possible. In some cases, a sibling within a family may have .5 of a pen if another sibling has a lamb or goat to fill that pen. Example: A brother has 1 lamb and a sister has 4 lambs. The brother is allotted .5 pens and the sister is allotted 1.5 pens for a total of 2.
