Throughout the Nebraska 4-H Pick-your-Project, each project highlights related careers. With so many different projects, the hard part will be deciding which career to explore first.

With over 150 different projects to pick from, youth have a variety of options to experience hands-on learning. Projects exist in 8 different curriculum areas. These areas allow youth endless opportunities to explore:

- Animal Science
- Communication and Expressive Arts
- Family and Consumer Science
- Environmental Education and Earth Sciences
- Healthy Lifestyles
- Leadership and Citizenship
- Plant Science
- Science, Engineering, and Technology
