SHOTGUN**

LEVEL II - WRITTEN EXAM

NAME _____ ID# _____ DATE _____

- T F 1. When receiving a shotgun from another individual, one says thank you to signal that they have control of the firearm.
- T F 2. If the shooter breaks the target there is no need to follow through.
- T F 3. Dry firing is an acceptable training tool in the shotgun shooting.
- T F 4. 2-3/4 inch shot-shells may only be fired in barrels marked 2-3/4 inch shells only.
- T F 5. The smaller the gauge number the smaller the bore size.
- T F 6. When cleaning a shotgun it is a good idea to keep a live round handy to make sure you assemble the firearm properly.
- T F 7. It is okay to fire a 3-inch shot-shell in any shotgun that will chamber it.
- T F 8. Follow through establishes lead in the swing through method.
- T F 9. Eye dominance is checked after the fundamentals have been learned.
- T F 10. The safety on a firearm is a mechanical device and subject to failure.
- T F 11. Right handers always shoot from the right shoulder.
- T F 12. Targets flying at different angles require different fundamentals.
- T F 13. Dry firing means going through the motions of firing a shot with a loaded gun, except pulling the trigger.
- T F 14. Shotguns fitted with choke tubes should not be fired without a tube in place.
