 Box Turtle
 Snapping Turtle
 Western Slender Glass Lizard

The list provided above is a compiled list of common wildlife species that either are native to Nebraska diverse landscapes and/or have been observed within the states boundaries during modern times. It is provided to serve as a guide for Activity II: Identifying Wildlife Photos. In this activity, each participant identifies the name of various species of wildlife using high-resolution images.

Unless indicated all will need to be known how to be identified. Those listed with a ^S will be Senior-level wildlife species only. Correct spelling and punctuation required will be required for all levels.

Wild Turkey

Bighorn Sheep
