

## Create a CT Scanner!

### ○ **TOOL**

---

TinkerCAD – 3D CAD Design Tool. [www.tinkercad.com](http://www.tinkercad.com)

### ○ **PREREQUISITES**

---

-A free Autodesk account.

-TinkerCAD works best with Google Chrome and Mozilla Firefox web browsers.

### ○ **TASK**

---

Using the basic shapes presets available in TinkerCAD, create a CT Scanner in the workspace by using Move, Rotate and Scale functions. You may use images from the internet as reference.
