  - Work together as a team to complete each station & receive score
  - All necessary technology or materials will be provided
  - No cell phones or other electronic devices with internet connectivity!
  - Station review following the contest (during lunch)
Healthy Living Skill-a-thon
Station Topics

- Nutrition
- Physical Activity
- Decision Making
- Food Safety
- Science of Food
- Conflict Resolution
- Culinary Skills (food prep)
- Living On Your Own
EntrepreneurShip Investigation Challenge

GOAL: TO DEVELOP A BUSINESS CONCEPT THAT PROVIDES A BUSINESS SOLUTION TO A PROBLEM
ESI Challenge Details

- Teams may consist of two, three or four members
- Teams will be first introduced to a problem facing society today – that is their topic for the competition.
- After learning about the problem, teams will brainstorm a business solution to the problem.
- Teams will develop questions to learn more about how the problem affects their potential customers.
- Teams will then interview other team members to help refine their business concept
- Teams will test out their business concept and prepare for their presentations
- Team will present their business concept to judges. They can use PPT, poster boards and other presentation materials provided.
No prior preparation is needed. However if teams would like to practice working together as a team, here is an exercise that they can use:

Think of a problem that is bothersome to people within your community. As a team, brainstorm possible ways that the problem could be solved through a business.

Questions to think about –

• What product/services would your business offer and why?
• Who are your customers and why would they buy your product/service?
• How would your customers get your product/service?
• How would your business make money?
• What is the best way to let your customers know about your product/service?
• What do you need to start your business? Facilities, cash, knowledge?
• What other decisions do you need to make about your business?
PASE
Premier Animal Science Event
PASE Contests Include:

- Meats for Consumers Judging (6/29)
- Poultry Judging (6/29)
- Livestock Quiz Bowl (6/29)
- Livestock Skill-a-thon (6/29)
- Livestock Judging (6/30)
Meats for Consumers Judging

- The contest consists of retail meat cut identification, food safety practicum lab exercise, written test and two placing classes of retail cuts
- No age divisions
- Teams will consist of 3 to 4 youth
- The highest ranking eligible team will have the opportunity to participate at the National 4-H Meats Judging Contest
Poultry Judging

- The contest consists of two classes of judging hens for past production, one set of oral reasons on a production hen class, grading eggs based on exterior quality, interior quality by candling, and broken-out quality, grading ready-to-cook parts. “National Poultry Judging” (4H 460) will be a reference for this contest.
- No age divisions
- Teams will consist of 3 to 4 youth
- The highest ranking eligible team will have the opportunity to participate at the National 4-H Poultry Judging Contest in Louisville, Kentucky.
Livestock Judging

- Both divisions will consist of 10 placing classes. All classes may or may not include scenarios to assist in placing the class. Breeding class scenarios may include actual data or EPD’s. Senior division will give reasons on 4 classes and answer questions on 2 classes. Intermediate division will give reasons on 3 classes and answer questions on 2 classes.

- Intermediate (10-13) and Senior (14-18) Age Divisions
- Teams will consist of 3 to 4 youth
- 1st Place Senior Team Only – Choice of the following national livestock judging contests:
  - National 4-H Livestock Judging Contest (Louisville, KY)
  - American Royal 4-H Livestock Judging Contest (Kansas City, MO)
  - National Western Roundup (Denver/Fort Collins, CO)
Livestock Skill-a-thon

- The contest will consist of six team stations. Each station is worth 100 points, for a total of 600 points in the contest. Stations will include:
  - Meats
  - Breed and/or equipment identification and uses
  - Breeding scenario problem
  - Animal evaluation and/or marketing problem
  - Quality Assurance
  - Feed identification and use and/or feeding/performance problem
- Intermediate (10-13) and Senior (14-18) Age Divisions
- Teams will consist of 3, 4 or 5 youth
- The highest ranking eligible team will qualify for the National 4-H Livestock Skill-a-thon Contest at Louisville, KY.
Livestock Quiz Bowl

- A team will consist of four members and up to 1 alternate
- There are no individual entries in this contest, only teams
- Intermediate (10-13) and Senior (14-18) Age Divisions
- The Champion Senior Division Quiz Bowl team will participate in the National Invitational 4-H Livestock Quiz Bowl in Omaha, Nebraska
