At check-in for muzzleloader we will check each rifle for safe working condition. We will check the sights to make sure they meet the rules. We will check the triggers on each gun to make sure they are safe. In checking the trigger we will make sure by tapping the muzzleloader rifle with a rubber mallet on the butt of the gun while it is cocked it will not discharge. We will also check to make sure that each competitor has a range rod to load with that is NOT wood.
