

Virtual Scavenger Hunt Ideas

Instruct the group that they will be having a virtual scavenger hunt to get warmed up for the day and learn about each other. A youth or adult leader will lead the group in choosing one of the topics below and allowing youth participants one minute to find the item and return to the meeting, ready to share with the group! Allow those who want to share to do so, then move on to another topic. Do not share the topics with the youth during the activity, each new topic should challenge them to act quickly!

Find Something...

That you made	That you like to eat	That is related to your hobby
Something that was/is your 4-H project	A photo of a family memory	That starts with the first letter of your name
Your pet or a picture of your pet	GREEN	That makes you smile
